

You are invited to the following event:

## Multicultural All In The Family Summit 2012

NAMI TN and TN STEP would like to extend this special invitation to you as part of our mission to promote competent cultural care for diverse communities in Tennessee. Our purpose of the day is to enhance services for culturally and linguistically diverse populations. Assessing attitudes, practices, policies and procedures of administrators and service providers is a necessary, effective and a systematic way to plan for culturally competence care within an organization. Determining the needs, preferences and satisfaction of family members/consumers is an essential aspect of this process.
